Email Communication Release Consent Form

To support effective lines of communication between school and home, emailing information on a regular basis has proven to be highly effective. At Morningside State School, we prefer to issue our newsletter electronically to reduce printing costs and paper usage.

Classroom teachers email regular classroom news to parents, and class parent representatives will also be able to keep in touch with you more effectively if you have an email address.

By providing your email address you will –
• Receive the school newsletter fortnightly;
• Receive regular classroom updates from your child’s teacher;
• Receive parent representative news keeping you up to date with other helpful information.

Your name: ______________________________________________________________________________

Your child/ren’s name/s: ______________________________________________________________________

_________________________________________________________________________________________

Your email address: _________________________________________________________________________

Your signature: ___________________________________________________________________________

***** Please advise the school if your email address changes *****
